## STUDENT WORKSHEET

## Gas pipeline safety

Name: \_\_\_\_\_ Date: \_\_\_\_\_

1. Why is it important to call your Utility Locator Service at 811 before starting a major digging project?

---

---

---

2. List five signs of an outdoor gas pipeline leak.

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_
4. \_\_\_\_\_
5. \_\_\_\_\_

3. List two things you should do and two things you should not do if you suspect an outdoor gas pipeline leak.

---

---

4. If you see a colored flag stuck in the ground while you are out playing, you should

- |                                   |  |
|-----------------------------------|--|
| a) call your utility to report it | c) leave it alone                      |
| b) use it in your play            | d) take it inside to show your parents |

5. Which of the following is unsafe to do to your home's gas meter?

- |                               |                         |
|-------------------------------|-------------------------|
| a) climb on it                | c) cover it with a tarp |
| b) tie your pet's leash to it | d) all of the above     |

6. Choose a natural gas safety tip. Make a poster that explains this tip to display at home or in your classroom.
